# THE CRAFT BEER SELECTION

## CURATED CRAFT TAPS

We believe the hop-forward nature of a craft beer is the ultimate companion to “yakitori” (grilled chicken skewers). The citrusy notes cleanse the palate between every savory bite.

Featuring local Hiroshima breweries and seasonal picks from across Japan.

**Starting at only 800JPY.**

# CHARCOAL-GRILLED PERFECTION

## THE STRIKE OF LIGHTNING

Named after "KAMINARI" (Thunder & Lightning), our grill hits temperatures that instantly sear the meat, locking in juices while creating a signature charred aroma.

We use premium Binchotan charcoal for an authentic, deep flavor profile that you can't find in modern gas grills.

# A SOCIAL STAND

## OPEN & FRIENDLY

Designed as a street-side beer stand, KAMINARI invites you to stand at the counter and soak in the city air. It's the perfect place to meet fellow travelers and share stories over a cold pint.
